

BefoRE SUN

Summer Essentials

Sun Days

The sun's rays are strongest between 10 a.m. and 4 p.m. Whenever possible, limit your exposure to the sun during these hours.

Sunscreen, Sunscreen, Sunscreen

Always use sunscreen — with an SPF of 15, at least — on all exposed skin 15 minutes before sun exposure. Re-apply every two hours, and after swimming or perspiring.

Extra Protection

Hats with wide brims offer great protection for your face, ears and the back of your neck.

Lose Your Shadow

Not all shade structures (umbrellas, trees, etc.) offer complete protection from the sun. If you can see your shadow, you're not in the shade!

Lip Saver

Lips can get sunburned too! Be sure to apply Lip Saver, SPF 30 to avoid burning and chapping.

Get this season's healthy look while protecting and nourishing skin with BefoRE Sun's key RE⁹™ anti-aging elements.

ARBONNE®

Get anti-aging “under control” **BefoRE** the damage is done.

Color Without Consequence

Get deep, radiant color without harmful side effects. Made in the Shade, Self Tanner, SPF 15 provides a beautiful tan that's good for your skin — thanks to the SPF 15. Here's how to apply the self tanner and achieve that radiant, sun-kissed glow each time:

- Exfoliate first for better absorption and to avoid patchy color. While exfoliating, pay special attention to knees, elbows, ankles and heels. Use Arbonne **Awaken Sea Salt Scrub**.

- Apply **Made in the Shade, Self Tanner, SPF 15** in a non-humid room to avoid streaking.

- Remember to wash hands with soap and water immediately after using **Made in the Shade, Self Tanner, SPF 15** and allow enough time for product to dry before dressing.

- Moisturize dry areas to avoid dark spots. Moisturize skin with **Glow With It, After Sun Lotion**.
